Advisory Action Before the Filing of an Appeal Brief --The MAILING DATE of this communication appears on the cover sheet with the correspondence address --THE REPLY FILED 07 November 2005 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. 1. The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods: a) The period for reply expires _____months from the mailing date of the final rejection. b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f). Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). **NOTICE OF APPEAL** 2. The Notice of Appeal was filed on ____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a). **AMENDMENTS** 3. The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because (a) They raise new issues that would require further consideration and/or search (see NOTE below); (b) They raise the issue of new matter (see NOTE below); (c) They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or (d) They present additional claims without canceling a corresponding number of finally rejected claims. NOTE: _____. (See 37 CFR 1.116 and 41.33(a)). The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324). Applicant's reply has overcome the following rejection(s): Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s). 7. X For purposes of appeal, the proposed amendment(s): a) X will not be entered, or b) X will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended. nd

The status of the claim(s) is (or will be) as follows:		
Claim(s) allowed: none.		
Claim(s) objected to: <u>none</u> .		
Claim(s) rejected: <u>1-12 and 20-28</u> .		
Claim(s) withdrawn from consideration: none.		
AFFIDAVIT OR OTHER EVIDENCE		
8. The affidavit or other evidence filed after a final action, but before because applicant failed to provide a showing of good and sufficiwas not earlier presented. See 37 CFR 1.116(e).		
9. The affidavit or other evidence filed after the date of filing a Notic entered because the affidavit or other evidence failed to overcom showing a good and sufficient reasons why it is necessary and w	ie <u>all</u> rejections under appea	I and/or appellant fails to provide a
10. The affidavit or other evidence is entered. An explanation of the REQUEST FOR RECONSIDERATION/OTHER	status of the claims after er	itry is below or attached.
11. The request for reconsideration has been considered but does in See Continuation Sheet.	NOT place the application in	condition for allowance because:
12. Note the attached Information Disclosure Statement(s). (PTO/S	B/08 or PTO-1449) Paper N	o(s).

Continuation of 11. does NOT place the application in condition for allowance because: Applicants contend that the reference, Zheng et al. (U.S. Pub. 2003/0166318) herein known as Zheng does not appear to describe a first conductive cross-sectional spacer on the first dielectric sidewall and forming a second conductive cross-sectional spacer on the first capacitor cell dielectric layer.

In response to Applicants' contention that Zheng does not appear to describe a first conductive cross-sectional spacer on the first dielectric sidewall and forming a second conductive cross-sectional spacer on the first capacitor cell dielectric layer, Examiner respectfully disagrees. Applicants are directed to FIG. 3, where Zheng disclsoes forming a first conductive cross-sectional spacer 20 on the first dielectric sidewall of insulating layer 16; forming a first capacitor cell dielectric layer 22 on the first conductive spacer; and forming a second conductive cross-sectional spacer 26 on the first capacitor cell dielectric layer 22 (page 1, paragraphs [0012]-[0014]). Since the Applicants do not show how the first conductive cross-sectional spacer form a portion of a capacitor top plate and that the second conductive spacer form a portion of a capacitor bottom plate. Examiner respectfully submits that Zheng teaches the same processes as the Applicants' claimed invention.

For this reason, Examiner holds the rejection proper.
